Dr. Frieda Hale's greatest passion is forging a bond with her patients. "I begin with the attitude that I am here to help," she says. "As I get to know my patients, I can find the best way to help with their needs and desires in order to achieve a beautiful smile or simply improve their oral health. Together, we make a treatment plan that is right for them."

With 30 years of experience, Frieda Hale, D.D.S., began her career after she was inspired by her favorite uncle who was head of the Oral Surgery Department at the University of Iowa. After graduating from high school, she attended the University of Texas at Austin and received a B.A. in microbiology. She then attended the dental branch of the University of Texas

Health Science Center at Houston where she graduated with a D.D.S. degree. Dr. Hale also has postgraduate training at the prestigious Las Vegas Institute for Advanced Dental Studies.

With the help of her attentive staff, Dr. Hale's practice is a blending of technical skills with compassion. She offers cosmetic dentistry to patients looking to improve their smile, and ensures the experience is enjoyable and efficient. "We enjoy all the cosmetic procedures, from whitening teeth to smile makeovers, but it is the connection with our patients that brings meaning to our lives and satisfaction in our work," she says. "We want to keep the personal touch as the primary experience of our patients."
